

## B. C. S. Bulletin To Old Boys

VOL.XIV NO. 1

COMPILER: H. L. HALL, M.A. ('16-'27)

NOVEMBER 1954

THE HEADMASTER'S MESSAGE: One of the most rewarding pleasures the School has is the return visits of its Old Boys. That is the reason why Thanksgiving is such a happy occasion, though here the joy is mitigated slightly by the tiresome regularity with which the School football team goes down to defeat at your hands. Perhaps if we would get some of the younger and slimmer Old Boys to return we would have a chance, but on second thoughts we would just as soon take the loss.

This year one young Old Boy who matriculated last June had a particularly pleasing if not unfamiliar message. He had been grumpy and a little on the uncooperative side last year and began by apologizing for it. Now, he said, he was beginning to realize what the School had done for him. He was safely in university and proud of his old School. I thanked him, without reminding him how many times we had told him exactly that. I suggested he pass along his message to boys currently in the School who might feel as he had last year.

Some of the younger Old Boys could help a great deal along those lines. School boys by their nature may well believe them where they would doubt a harsh and crabbed old man like myself.

We would like to see every week-end a Thanksgiving, if our constitutions could stand it. Please come and visit us soon again, even if you haven't a message for the boys. We want to see you, and think you might find new reasons to be proud of your old school.

ANNOUNCEMENT: B.C.S. annual Squash Tournament, at the School, December 4-5.

### The Thanksgiving Week-end: October 9-11

In spite of miserable weather, many parents joined by just under 100 Old Boys were present at the School--its 119th year--for the Thanksgiving celebrations. Saturday morning, Ashbury defeated the School rugby team 33-6. Sunday morning, St. Peter's Church, Sherbrooke, was filled for the School service. Donald Patriquin (Sixth Form) played the organ in a professional manner and the Choir, maintaining its high standard, under the direction of the Chaplain, the Rev. H. Forster, sang the anthem, "Non Nobis Domine". Those who heard the Chaplain will long remember his thought-provoking sermon, delivered in his usual forthright manner. Interpreting a dream in which schoolboys appeared before him in need of guidance, the Chaplain emphasized the value of clinging to that which is worthwhile and rejecting whatever is mediocre, and developed the theme of showing gratitude to God in all phases of living. Sunday afternoon, the Headmaster and Mrs. Glass were AT HOME, and Old Boys express once again their thanks for the kind hospitality extended them. Monday morning, about 25 Old Boys turned out to defeat the School rugby team 12-6. A delicious lunch was served at two sittings and at 3 p.m. Prize Giving was held in the Gymn. Seated on the platform were: Mr. Justice Mitchell, Chairman; the Headmaster; R. R. McLernon; T. H. P. Molson; H. C. MacDougall; H. W. Davis, Q. C.; D. Doheny; J. Churchill-Smith, President of the Old Boys' Association who distributed the Prizes; E. Webster; D. R. McMaster, Q. C.; F. R. Pattison; E. G. Brine. The Chairman in welcoming the many guests outlined the additions to the School facilities which include two new Prep playing fields, a new Physics laboratory and artificial ice at the School Memorial Rink. The Headmaster, on behalf of the School, tendered a vote of thanks to the Companies and friends who had contributed funds to the facilities mentioned by the Chairman and then developed his address stressing that B. C. S. was an independent school, a Canadian school, a manly school, a religious school, and an academic school; and pointed out the advantages of B. C. S. being an independent school -- the closest parallel in secondary education to the free enterprise of a real democracy, referred to the contributions made by its Old Boys in many fields, stated that the School aims at discipline that will turn out men, emphasized the importance of inculcating Christian principles in all its endeavours, and mentioned the successful academic results obtained by B. C. S. Prizes were then distributed to the winners after which a Tea Dance was held in the Gymn.

We extend congratulations to the following for winning prizes and med

Sometime ago, we saw a comparative chart showing how many hours people, in different occupations, needed to work to earn sufficient money in order to pay for certain articles; e. g. a pound of butter, a pair of shoes, a carton of cigarettes, a suit of clothes, etc. Your compiler naturally added to the list, "Fees to Old Boys' Association" (\$3 for the first ten years, \$5 thereafter. \$100 for Life Membership... all deductible from Income Tax, and payable to: P. J. AIRD, P. O. BOX 3, PLACE D'ARMES, MONTREAL)... and then calculated, with the aid of a sliderule, the time required. Herewith the results:

Category I: Anyone averaging \$10 for an eight hour day (Clergymen and School masters would fall into this category... (though not a few are known to put in more than eight hours)... 2.4 hours. (Yes, the decimal point is in the right place!)

Category II: All those not included in Category III (Clergymen and Schoolmasters could fall into this category)... very difficult to determine an average daily amount and number of hours, but the sliderule seemed to take everything in its stride, even untangling something about log root 3, divided, subtracted, multiplied, or something or other into the square root of anti-log root 7 minutes, and produced the astonishing answer of .017 of a minute. Just fancy! .017 of a minute's effort and the fees for a whole year are paid!

Category III: All those not in categories I and II: this leaves lawyers, doctors, dentists, stockbrokers, presidents, vice-presidents, -- in fact, anyone with a salary of \$50,000 and over a year.

All anyone in this category had to work was: FB 1/500 Sec: Red Filter: Wind nil: ... sorry, I picked up a photography chart instead of the sliderule. Let me see, now, yes, here it is: "Seven places after the decimal of a second"! Imagine! Less time than is necessary to blink one's eyes in amazement!

Far better not to question the answers, but pay your fees and get on with earning the rest of the pound of butter, carton of cigarettes, and the vest of the suit!

P.S. If every Old Boy who receives the Bulletin pulls his weight, the Association would have just under 1000 members. Last year the total number was 357. . . well below the record 451 attained in 1949-50, when our aim was to reach at least 500. We are still hoping sometime to reach this number. Have YOU joined yet? If not, we know Page 9 will interest you greatly.
